

Wyoming Modelers' Park Association

Prez Sez

The search for funding continues. Rich and I met with the District 25 Recreation Board on Feb. 27th to report WyMoPa activity. Recall that they provided additional funding last year so we could complete the runways. The Board and a large crowd of grant seekers gave WyMoPa enthusiastic and generous applause for our program.

Fremont County Recreation Board meets March 26th. WyMoPa officers will attend to submit our grant request for their next funding cycle.

March 5th will be a meeting of the WyMoPa Board and the Water Development Task Force Group focused on water/well development for 2003 and long-range planning for the boat pond. Keep the vision of a total community Park oriented to RC sports! We will get there! We'll report meeting outcomes at the March 11th meeting.

Sherryl Gores will be our guest speaker at WyMoPa's regular meeting March 11th. Be there to hear details of her exciting Young Aviators program, which we are supporting.

Come July, will someone please remind the rest of us about this snow and below zero weather...? Meantime, enjoy the building season!

Prez Eddie

Next WyMoPa Meeting

Mark your calendars now for the next WyMoPa meeting. It's Tuesday, March 11th at 7:00 pm. As usual we'll meet at the Riverton Senior Center.

WyMoPa Racers in Utah

Randy Dwyer, Becky Dwyer and Shannon Watts recently raced at the President's Day Classic, February 15th. The race was hosted by Full Throttle R/C Raceway in West Haven Utah outside of Ogden. The WyMoPa racers showed up one day early to get in some much needed practice. The other racers at this race have been racing on dirt all winter. Those of us from the frozen tundra of Wyoming, put our off-road equipment away for the winter.

The crew at Full Throttle put on a great event. The track was awesome. Part of the track was a full oval which allowed them to have another class of racing we had not seen, OVAL MADNESS. Total highspeed carnage would probably describe this class best. Fun to watch. If Full Throttle R/C Raceway sounds familiar, it should. Papajak and his crew brought their mobile hobby shop full of goodies to our 2002 Off-Road Challenge last summer. Full Throttle has graciously offered to return to our upcoming annual trophy race. Our members race results are posted below. Not bad for their first time out this year.

Race Results

Stock Truck B-Main

Shannon Watts 5th Place, 13 Laps in 5:13

Stock Truck C-Main

Becky Dwyer 1st Place, 13 Laps in 5:20
Randy Dwyer 3rd Place, 10 Laps in 3:58 (did not finish)

2WD Stock Buggy B-Main

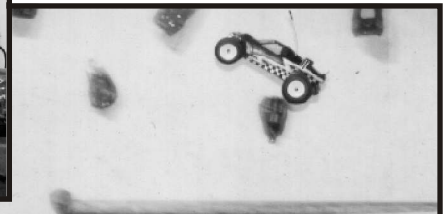

Randy Dwyer 3rd Place, 12 Laps in 5:07
Becky Dwyer 4th Place, 12 Laps in 5:08

Cycle Those Batteries

Remember that this snow will soon disappear! (At least we hope so) To be ready, you should be cycling your batteries now to make sure that they are ready to go for the season. If you find your batteries need to be replaced, you might check out Batteries America. They have battery packs for every make of RC gear. Check them out at www.batteriesamerica.com

Program for February's Meeting

Let's do another show and tell for this meeting. Bring your winter project for everyone to see. Don't worry if it's not done, bring it anyway!

Got any more old stuff Dave?

Calendar for 2003

Go to the website www.wyomingmodelerspark.com and you will find the calendar. We have put a lot of car racing and fly-in dates on it. We think we have most of the regional activities listed. If you know of any others, let Rich or Shannon know. At the March meeting we will discuss the first WyMoPa Fly-in.

C&G Hobbies

Remember Gene Corson (one of our Casper WyMoPa members) has a hobby shop in Mills. Its called C/G Hobbies. The phone number is 307.234.4360. If you are in the area

and stop in and leave some money with him. I'm sure he'll appreciate it very much.

Think Sunshine/Think Warm Weather Think Racing and Flying!

For Sale
