

# Wyoming Modelers' Park Association

## The Prez Sez

We have been notified by Fred Hildebrand, that AMA has awarded us as a result of our achieving Gold Leader Club status a grant of \$1,000.00. It will be placed in the bank account and used on an appropriate project.

If you haven't been to the Park lately, you need to come out and see what great condition it is in. Field Marshall Dick Adams and his assistant Eddie Amend have been working on the grounds. By the time you read this, the burning for this season will be done. The Honor Farm Fire Crew started it off with a major burn and Dick and Eddie have taken care of the rest. They also tested the new mowing equipment by giving the Commons grass a first cut. Word is the mower is really fun! When you see Dick and Eddie tell them how much you appreciate their hard work!

There is now a quicker way to spell RELIEF at the aerodrome. The new handicapped accessible toilet has been placed at the east end of the parking lot. A major change is that this is a uni-sex toilet. What that means guys is LIFT THE SEAT! The next person who uses it might be your wife, mother, daughter, girl friend...

We thank the District 25 Recreation Board for granting us the money to purchase the new toilet.

We will move the existing handicapped toilet to a location selected by the car group. Remember when we do guys, you need to lift the seat also.

One last thought on the toilets, be sure to secure the door with the bungee cord when you leave.

Another improvement at the aerodrome is the placement of a windsock straight out from the pilots' boxes. This should be a big improvement for determining takeoff and landing directions. Thanks to Bob Nordick for digging the hole and Dick Adams for installing the pole and sock.

Saturday May 3rd is the annual Radio Shack fair. If you can, make sure to bring your cars, truck and planes and set up a display for the community. One of our Gold Leader Club requirements is to have displays of our pastime for the community. The Golden K Club will have food, donated by Mike Hammer, and the proceeds go to WyMoPa. VP John Stremming will be coordinating the activity.

Shannon has done another great design for the Fly-in tee shirts. Rich is taking orders and we'll need to have the order in by May 25. See him at the field, or give him a call (857 0505) with your size, pocket or no, and how many you want.

Have you seen Randy Edgington's Hangar? WHAT A GLORIOUS SIGHT!! Way to go Randy!

See you at the Park...

## Next Meeting

The next meeting will be Tuesday May 6th, at 7:00 pm. The meetings are at the Riverton Recreation Center, 201 East Washington Street. See you there.

There are a number of you who need to pay your dues! Remember that the dues we pay help us keep our flying and driving sites maintained.

Wyoming Modelers' Park Assn.
